The sunken living room allows for a smooth transition between the Casa Roma ceramic tiles and the Préverco maple hardwood floor to create a beautiful visual effect.

**W**HEN YOU ENTER THE HOME OF KURRIE AND DEBBIE STOREY, LOCATED in the rural community of Claremont, Ontario, you realize it is anything but typical. Cathedral ceilings, towering fireplace and vibrant colours make this a spectacular home. Created following 10 years of careful planning and hundreds of ideas from home design magazines, the Storey's came to Patti-Lynn Interiors to help them find the right decorating solutions.

The sunken great room is the focal point of this home. With a towering stone fireplace that extends to the top of the beamed cathedral ceilings, the room called for decorating that was just as dramatic. A stunning leather faux finish was applied to the walls and complemented by rich Maple floors from Preverco in Auburn. To finish the look, areas rugs with bold colours draw the room together.

The Binn's Designer kitchen is just as spectacular. Lots of counter space, stainless steel appliances and a dramatic bar called for floors that could handle casual kitchen parties. The Storey's decided on Casa Roma ceramic tiles in *Ardesie Verde*. This subtle blend of mid-tone greens, brown and oranges extends into the front foyer beautifully.

As you go upstairs to the loft area overlooking the house, you find the game area complete with a pool table. Here, the leather wall finish is repeated, but Richmond's Shetland Collection in *Emperior Blue* was chosen to not only complete the look, but is practical and easy to maintain.

Clockwise from top: Area rugs can transform the look of any room. Hunter Douglas Everwood blinds with red fabric accent the upstairs sitting area. Richmond Carpet's Shetland Collection in *Emperior Blue* creates contrast with the bold wall texture.

The painter used a dry brush method with a base coat of CIL's *Honey Wind* and a top coat in CIL's glaze, mixed to custom, in *Burnt Sienna* to create this stunning effect.

## bedroom palette

1. **Paint:** CIL Select in *Wild Cranberry* #90RR 10/119.
2. **Window treatment:** Levelor Cellular Shades in *Merlot* lend drama and privacy.
3. **Carpet:** Homestyle's Catico collection in *Sunset*.

Magica St. Lucia ceramic tub enclosure and floor tiles are striking.

In the master bedroom, the Storey's wanted a private and romantic look that differed from the look of the rest of the house. Patti introduced neutrals and burgundy's to compliment the ornate leather and wrought iron furnishings. Homestyle Carpet's Catico collection in *Sunset* is perfect around the bed. "Although the Storey's love hard surface floors, Debbie really wanted to wake up in the morning to warm, soft comfort under her feet" says Patti. To finish the look and create privacy, Levelor's Cellular Shades in *Merlot* were added.

Says Debbie "Patti-Lynn Interiors did a fantastic job! I was a little nervous at first using such a bold palette and being so specific with my needs, but I had confidence in Patti-Lynn Interiors' expertise to bring my visions home!" ■
